Objective: Aspiring AI/ML Engineer with a strong foundation in Python, Machine Learning and Generative AI, and hands-on experience building RAG-based and NLP-driven applications using embeddings and FAISS. Passionate about developing, optimizing and deploying intelligent models through analytical problem-solving, with solid fundamentals in algorithms, data structures and databases.

INTERNSHIPS AND PROFESSIONAL TRAININGS

HCL EdTech – VLSI & Embedded Systems Internship **Bengaluru**

Website: https://www.hcltech.com **Aug 2024 – Nov 2024**

Training in Technical and Soft Skills

- Completed 135 levels of computational coding in Python/C, strengthening programming fundamentals.
- Solved 175 HDL Bits hardware modelling problems, building strong understanding of digital logic and RTL design.
- Designed and simulated embedded systems using Wokwi (10 levels).
- Gained practical exposure to VLSI concepts, hardware modelling, and embedded system development.

EDUCATION

Dayananda Sagar Academy of Technology and Management (DSATM) **Bengaluru**

Bachelor of Engineering – Computer Science And Engineering **Oct 2023 – Jun 2027**

Major subjects credited **CGPA : 9.30**

- Data Structures & Algorithms, Operating Systems, Database Management System, Cloud Computing, Artificial Intelligence, Machine Learning, Software Engineering, SQL.

PROJECT 1: GENERATIVE AI-POWERED UNIVERSITY ERP & STUDENT SUPPORT SYSTEM

React.js | TypeScript | FastAPI | Python | RAG | FAISS | SQLite

- Developed an AI-integrated University ERP platform with modules for academics, examinations, attendance, placements, fees, and grievances.
- Implemented a RAG-based AI assistant using embeddings and FAISS for semantic search and context-aware responses.
- Built PDF/DOCX document intelligence for extracting rules, deadlines, requirements, summaries, and document comparison.
- Implemented JWT authentication and role-based access control with React frontend and FastAPI REST APIs.
- Integrated personalized AI features including attendance risk detection and study scheduling.

EXTRA CURRICULAR

- Participated in Aurora Tech Fest 2025 Workshops
- Attended technical workshops organized by the CSE Department in collaboration with IEEE and TechSparkClub.
- Gained hands-on experience in AI, Full Stack Development, Internet of Things (IoT), and Cyber Security.

ACHIEVEMENTS, AWARDS AND CERTIFICATES

- Certificate (participant) – national level hackathon, state level hackathon

Shaheen Indp PU College Bidar Karnataka **Bidar**

Pre-University Course (PCMB) **March-2023**

Physics, Chemistry, Mathematics, Biology **Score – 91.5% (549/600)**

Jawahar Navodaya Vidyalaya (JNV) BIDAR **Bidar**

CBSE **Aug-2021**

Kannada, English, Hindi, Mathematics, Science, Social Science **Score: 83.8% (419/500)**

TECHNICAL SKILLS

Operating Systems : Windows | Linux (Basic working knowledge)

Programming Languages : Python | SQL | C/C++ | Java

AI / ML : Generative AI, Retrieval-Augmented Generation (RAG), Embeddings, Semantic Search (FAISS), NLP (document understanding, summarization), Machine Learning fundamentals

Data Analysis : Microsoft Excel (Basic), Data Cleaning, Statistical Analysis (basic)

Database : H2 Database, Spring Data JPA, SQLite, DBMS

Web Technologies : React.js, TypeScript, FastAPI, Spring Boot, REST APIs, HTML5, CSS3

Developer Tools : Git, GitHub, VS Code, Vercel, Render

ADDITIONAL INFORMATION

- Interested in Artificial Intelligence and Machine Learning (projects), and Software Engineering
- Actively participate in technical hackathons and coding activities.
- Hobbies: Exploring new technologies, sports, reading books etc…
